*****SEE YOU WEDNESDAY 8 JUNE BEFORE 6:30 A.M.*****

The BOUTWELL, one of the newest and finest cutters in the Coast Guard, is the fifth of a class of twelve High Endurance Cutters. The BOUTWELL is named for George S. Boutwell, Secretary of Treasury under President Ulysses S. Grant, and is the third cutter to bear the name. The BOUTWELL was built in 1968 at a cost of 16 million dollars by Avondale Shipyards, Inc. of New Orleans, Louisiana.

The BOUTWELL incorporates some unique and novel features allowing her to perform several Coast Guard missions. Driven by two Pratt and Whitney gas turbines similar to those installed in large jet airplanes and delivering a total of 36,000 shaft horsepower, the BOUTWELL can attain speeds in excess of 27 knots. When driven by two diesel engines she can cruise for 11,000 miles at 18 knots. This dual capability enables the BOUTWELL to engage in law enforcement and fishery patrols for days on end or in case of a Search and Rescue mission, to get quickly to the scene of the distress to render aid. The BOUTWELL's two 13-foot diameter propellers are variable pitched allowing them to reverse direction without stopping the shafts to back the ship. This gives the BOUTWELL acceleration and deceleration capabilities unusual for a vessel her size. A retractable bow propulsion unit provides thrust to direct the bow in any direction and gives the ship the capability of actually moving sideways in the water.

The BOUTWELL carries two 26 foot motor surf boats, launched and retrieved by high speed hydraulic boat handling equipment, and an inflatable rubber boat, powered by an outboard motor. The 80-foot flight deck is capable of landing, servicing, fueling, and carrying the Coast Guard's jet powered helicopters used for aerial surveillance, transporting personnel and cargo between otherwise inaccessible locations, search and rescue, and other missions.

In October 1980, the BOUTWELL played an instrumental part in the rescue of 519 passengers

and crewmembers from the luxury liner PRINSENDAM. The Dutch cruise ship caught fire and sank in the Gulf of Alaska.

In addition to her mission of safety of life at sea, the BOUTWELL takes an active part in enforcing U.S. Customs laws. In June of 1982, the BOUTWELL intercepted and boarded the sailing vessel ORCA during a routine North Pacific Ocean law enforcement patrol. The crew was arrested and the vessel, with its 3000 pound cargo of marijuana, was seized and towed to port.

The BOUTWELL plays a primary role in the enforcement of U.S. laws and international treaties concerned with protection of U.S. fishing rights and the interests of American fishermen. The BOUTWELL spends over four months each year embarked upon Alaska Fisheries Patrols cruising the North Pacific from the Gulf of Alaska along the Aleutian Chain to the Bering Sea as far north as St. Lawrence Island, within 180 miles of the Soviet Union. The BOUTWELL's extensive electronics equipment permits high speed communications as well as helping maintain a watchful eye over foreign fishing activity.

In keeping with the Coast Guard's duties and functions as a branch of the Armed Forces of the United States, the BOUTWELL's extensive equipment and armament make her "Always Ready" to operate as a service in the U.S. Navy upon declaration of war or when the President directs. Over two months each year the BOUTWELL is engaged in extensive training and exercises with the Navy in waters off Southern California.

The BOUTWELL's first homeport was in Boston in Mr. Boutwell's home state of Massachusetts. She arrived at her present homeport of Seattle, Washington in August of 1973, and berths at Pier 36 when not at sea.

The BOUTWELL proudly displays the Coast Guard Unit Commendation, Coast Guard Meritorious Unit Commendation, National Defense Service Medal, and Humanitarian Service Medal awards from her bridge wings.

Water taxis

Small boats chugged busily along the Columbia River waterfront near the Port of Astoria piers this morning, as charter boats became water taxis ferrying passengers to military ships heading upriver for

the 75th Portland Rose Festival.

The bulk of the 25-ship Rose Festival Fleet will pass by Astoria today and Thursday morning. The U.S. Coast Guard Cutter Boutwell, shown steam-

ing upriver with her load of passengers on board, and four Canadian minesweepers had tied up overnight at the port.

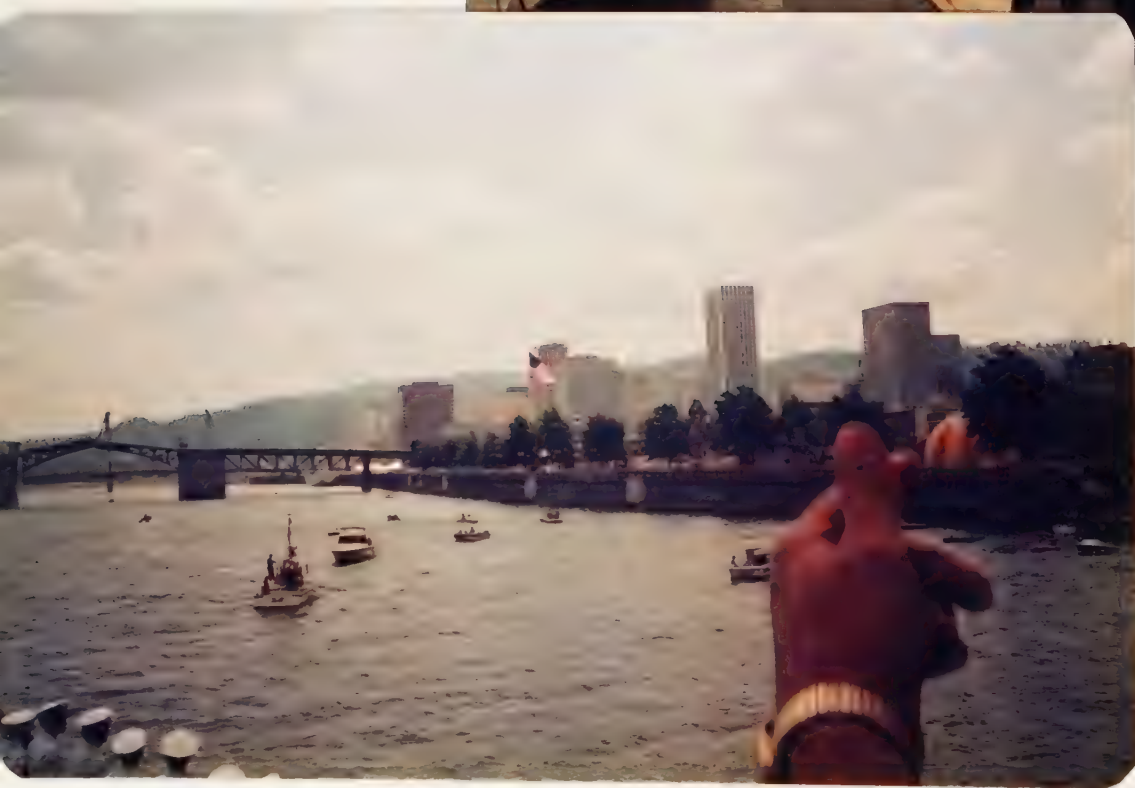

July 22, 1983

Dear Lt. Veentjer,

We certainly enjoyed our trip up the river on the Boutwell. The Astoria Regatta Princesses and their party were treated royally. It was a highlight in their reign.

My family was so excited about seeing the sights from a ship on the river, that together we took approximately 200 photographs and slides.

I would like to be included in the mailing for the 1984 Rose Festival packages.

Thank you again for your part in that great experience.

One chosen — but 16 winners

Seaside, Oregon, July 14, 1983

There were 16 contestants competing for the title of Miss Oregon 1983, but when it was all over, it was Miss Douglas County, Stephanie Jill Wymer, who was crowned by Laura Ann Matthys, Miss Oregon 1982. Because the contestants were given new numbers on Saturday night, Wymer didn't immediately realize that it was her number that was announced as the winner. A split second later, far right, reality set in. At left, fourth runner-up, Miss Linn-Benton, Shawni Modrell, presented an oral interpretation of an excerpt from Leon Uris' "Exodus."

Miss Clatsop County, Heidi Lammi, earned third runner-up honors. She danced the "Auroras Variation" en pointe from the ballet, "The Sleeping Beauty." Last Tuesday was Pageant media day. Above, Miss Lincoln County, Kristina Luther, posed for photographers on top of the Seaside Lifeguards' truck.

Tara Bassett, Miss Forest Grove, above, presented a combination piano and vocal rendition of "You're Gonna Hear From Me," from the movie, "Inside

Daisy Clover." She was named as the first-runner up. At right, Wymer sang Paul Williams' "With One More Look at You."

"It we get proper funding to do our mission, the service can't help but get better every year," says U.S. Coast Guard Capt. David Ciancaglini.

Ciancaglini says service future bright

By TONY MEYER
Of The Daily Astorian

Capt. David Ciancaglini likes the direction the U.S. Coast Guard is heading.

"There are a lot of improvements being made at all levels, such as the acquisition of new equipment and improvement in the quality of life of Coast Guard personnel. If we get the proper funding to do our mission, the service can't help but get better every year."

Ciancaglini, commander of Coast Guard Group Astoria for the past three years, turned over his command today to Capt. William Donnell in a ceremony at Air Station Astoria. Group Astoria is composed of about 340 Coast Guard personnel stationed from Queets, Wash., to Pacific City.

The 46-year-old Ciancaglini has been reassigned as chief of the personnel division for the 14th U.S. Coast Guard District in Honolulu.

"I WILL MISS Astoria," he said in an interview with The Daily Astorian. "There is a warmth about the communities that is difficult to describe. I don't want to leave, but if I have to go somewhere, Hawaii is a good place to go. The assignment I have is a good one."

Ciancaglini said his new post will give him more normal working hours, a big change from being on call 24 hours a day, seven days a week.

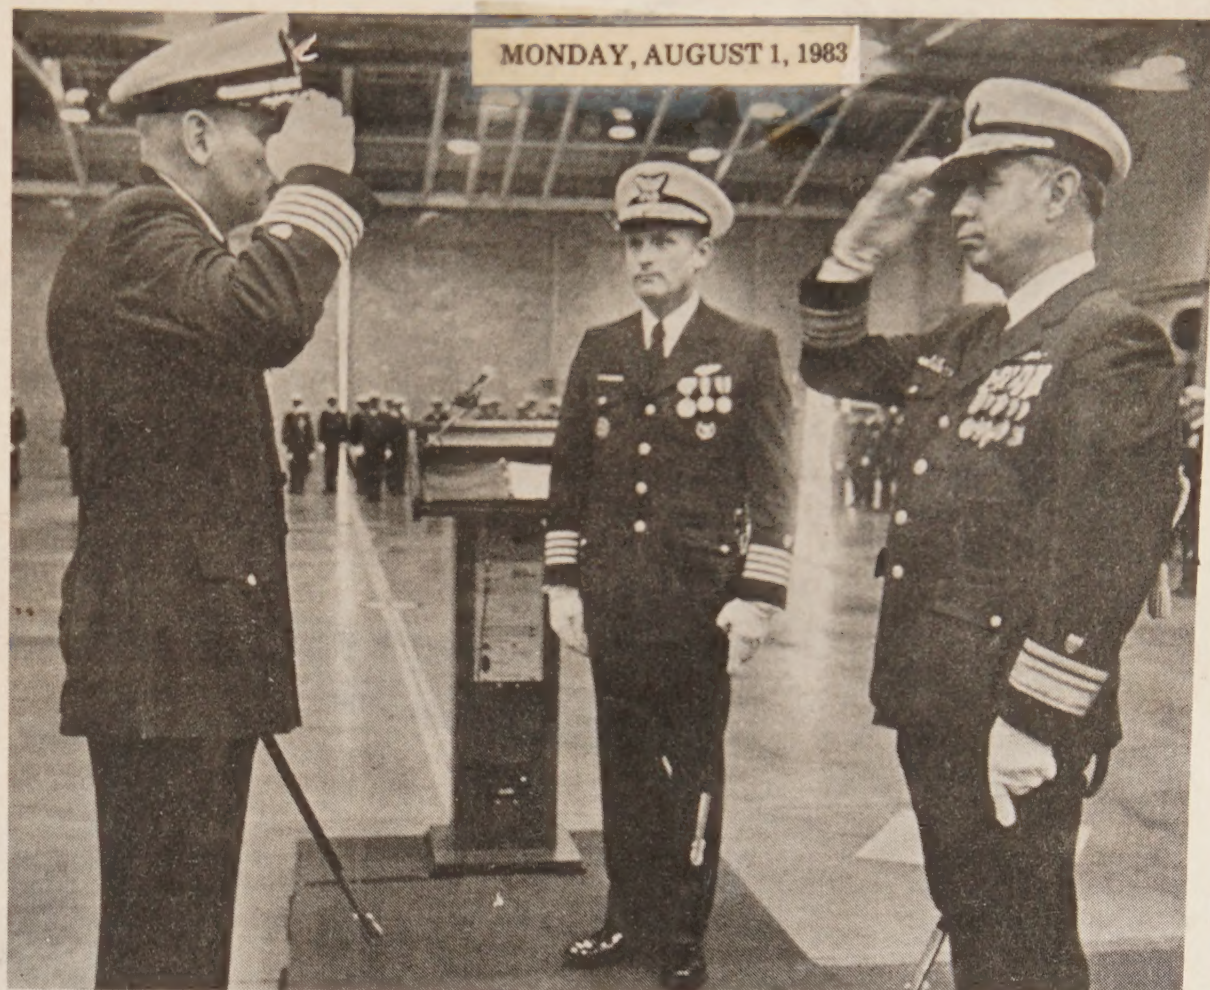

The public, Ciancaglini said, gets more from the Coast Guard for its money than any other military service.

"Right now, our funding level is sufficient to meet our needs. We are buying the equipment we need. Our retention rate is up in the service and this makes for a healthier Coast Guard," he said.

Ciancaglini leaves command of Air Station Astoria at a time of change.

A \$4.8 million project to construct new facilities and improve existing ones is under way at the air station in preparation for the arrival of two medium-range surveillance HU-25A Falcon jets in October. The project is scheduled for completion in June 1984.

Six aviators, 19 maintenance crewmen and one yeoman are arriving with the new jets. Altogether, Ciancaglini said, about 90 residents will be added to the area. That figure includes the new personnel and their families. The new residents are expected to pump \$750,000 into the local economy. That should help offset the loss of the Coast Guard cutter Yocona, which has been reassigned to Kodiak, Alaska.

Command changes

Capt. David Ciancaglini, left, saluted Rear Adm. Harold Parker during a change of command ceremony Friday at U.S. Coast Guard Air Station Astoria. Ciancaglini, commander of Coast Guard Group Astoria and the air station for the last three years, was replaced by Capt. William Donnell, center.

During the ceremony, Ciancaglini received the Coast Guard commendation medal for his service as group and air station commander.

He has been reassigned as chief of the personnel division for the 14th Coast Guard District in Honolulu.

Donnell, 46, previously served as assistant liaison officer to the office of the assistant secretary of defense for manpower, reserve affairs and logistics in Washington, D.C.

Parker is commander of the 13th Coast Guard District, which includes Group Astoria.
